To the Editor of the New York Times:

We are now engaged in paying debts and not in torrowing more money. We do not need cheap money iffun Lindon when times are good, and when times are farid we can not get it. I favor the repeal of the Sherman law, and in its place the hill remountiration of silver and its free and unimited cohange. As to the plan of curren y issue tavoral by me. I hold to the use of both cold and silver as the standard money of the country and to the colmage of 10th gold and silver without discrimination against either metal, and further believe that if the president and Mr. Carlishe carry this out so far as not to conflict with the Sherman law and fearlessly employ the use of gold and silver coin in all payments by the government, the condition of the treasury would be relieved and times improve throughout the country. The basis of my conduct on all political measures shall be the democratic platform of 1992, upon which the president and all the democratic congressmen were elected. THE SUNDAY OUESTION.

The United States Court of Appeals, Chief.

CHICAGO, Juffe 18 .- The decision of the United States circuit court alosing the World's fair on Sunday is reversed.

CHIEF-JUSTICE PULLER. Soncurrence of all the sitting justices, while the decision reversed was disof the judges then sitting on the case. The court after reviewing the arguments of the government counsel at dismiss the appeal overruled. Coming down to the main question the court took the ground that the appropriation of \$2,500,000 in souvenir coins by the United States government could not possibly be construed as a charity, or as a charitable bequest. It was simply an appropriation for the assistance and benefit of the local corporation for the purpose of completing a work that affected the honor of the United States. As to the right of the United States to possession and control of the grounds, the court held that the local corpora-tion was in actual and lawful possession, and that this fact had been recognized by acts of the national legislature. The court repudiated the idea that the United States had any exclusive rights or authority in the premises, and concluded with the declaration that no tenable

dinary rules governing a court of chancery.
"Therefore," concluded the chief justice, "the order of the circut court is reversed and the case is remanded for any further proceedings not inconsist-

grounds had been shown for excepting

ent with this ruling." A great cheer went up from the great crowd present in the court-room when the chief justice concluded, and the news of the decision was quickscattered through the busines district. FOOD FOR FLAMES. everal Mining Towns on

of a year of enterprise on the Mesaba range has been wiped out in a single day. Advices received yesterday indicate that the towns of Virginia and Mountain Iron had been destroyed and that Biwabie was partially if not entirely wiped out. It is impossible to estimate the loss, but it will approximate \$1,000,000, and several thousand

people are homeless. in danger. Forest fires have been burning on all sides of the new mining towns, and only by the greatest effort has the disaster been averted. The towns are McKinley, Mesaba, Biwabie, Virginia and Mountain Iron, with an aggregate population of about 7,000, on a nearly straight line along the range, covering a distance of twenty-five miles. The most important is Virginia, with 3,500, and then Riwabic with 2,000. Mountain Iron has a population of about 800, and McKinley

200. On Saturday the first news was received which indicated any serious Up to this time the range towns had fought the fire for themselves, and had, so far as possible, kept the news of their danger from reaching the outside world for fear their prospects might be injured. On Saturday General Manager Philben of the Mesaba road rereived advices which convinced that the danger was imminent, and he went to Virginia to look after the interest of his road, which touches most of the mining towns. The fire at this time was all about the village, but

there was every reason to believe that it could be kept under control. Yesterday morning a strong wind blew and the range was doomed. The first news came from General Manager Philben, who telegraphed at 2 o'clock to President Merrit of the road: "Men, women and children loaded on ore cars ready to leave. For God's sake

send us aid." At nearly the same time me were received from other range towns. The operator at Mountain Iron telegraphed that the town was burning, and the operator at Biwabic wired to President Greatsing, of the Duluth road: "Goods removed from depot. Good-bye." Since that time the wires

to Biwabie have been down.

The Mesaba officials state their advices are that Biwabie has been saved, but indications are that the village has shared the fate of Virginia. At 6:35 Mr. Philben telegraphed: "The whole town of Virginia, including the freight house has been burned. We are bringing women and children here and have two engines trying to get cars out. Tell Mr. Fisher of the Duinth & Winnepeg road to be prepared to send women and children to Duluth by
